Subject: Emery Mine 3rd Quarter Water Samples

Pam,

In response to the letter dated February3, 2005, from David Darby, we have updated our water samples for the 3rd quarter. In addition to the sites entered into the pipeline our UPDES Oil and Grease are visual inspections, and there is not a place to enter that information into the pipeline. Also, we would like to request the following sites be removed from the database:

Well ZZ

Well SM 1-2

Well I-U

The above sites are damaged and we are not able to sample them. If you have any questions or concerns please let me know.

Thank You

Russell Hardy
